Rapid Flex CJ & Rapid Flex 90 – Control Joint Fillers

Our Rapid Curing, Semi-rigid Polyurea Control Joint Filler is now available in different colors.

Rapid Flex Colorant System is a concentrated pigment pack designed to pigment SpecChem's two-component polyurea control joint fillers. The Rapid Flex Colorant System simply mixes into a neutral base, providing custom colors for filling control joints on architectural colored and polished concrete floors. Our control joint color system offers the convenience of multiple colors without the high cost of extensive inventory.

**Compatible with both Rapid Flex CJ & Rapid Flex 90 Polyurea Control Joint Fillers.*
