

Premium reactive water-based tilt-up Cure/Bondbreaker

A chemically reactive water based tilt-up cure/bondbreaker specially engineered to provide a clean, easy lift of tilt-up panels and meet the moisture retention of ASTM C309. Clean Lift 20/20 contains no diesel, kerosene, waxes or silicones.

✔ Benefits

- Easily identifiable on the casting slab
- Clean panels lift easier, no resin stains
- Chemically reactive
- Resists foot traffic abrasion
- Contains no diesel, kerosene, waxes or silicones.

Usage

- Warehouse tilt-up panels
- Office Building construction
- Big Box Stores
- Hotels and tall buildings up to 10 stories
- Shopping Centers
- Applications where structures need to go up quickly and economically

Standards

- VOC Content: < 350g/l
- Complies with Federal VOC standards for Curing and Sealing compounds
- Do not thin or dilute
- USDA Accepted

Packaging

- 5 gallon pail (18.93 liters)
- 55 gallon drum (208.2 liters)
