

Water-Based Concrete Curing Compound

E-Cure® is a leading edge technology, clear concrete curing compound that was developed to cure concrete as well as resolve compatibility issues related to flooring adhesives. E-Cure® is a spray applied concrete cure, hardener and dustproofer.

✓ Benefits

- Non-yellowing, does not alter natural color of concrete
- Non-flammable/odorless/VOC Compliant
- Will not inhibit adhesion of secondary coatings, topping, or adhesives designed for concrete
- Resists acids, oils, greases, salts and tire marks
- USDA accepted
- Certified for use to cure potable water structures
- Contains 0 VOC's
- Tested and certified to the performance requirements of NSF/ANSI 61

Usage

E-Cure® penetrates and forms a temporary membrane to cure, densify, harden and dustproof concrete essential for proper strength development. E-Cure® meets the moisture retention of ASTM C-309, Type 1 or 1-d, Class A and B on hard-troweled concrete surfaces. May contribute to LEED credits.

Standards

Tested per CDPH Standard Method V 1.2-2017 and complies with all LEED V.4 Requirements. Adhesion tested by TCNA (Tile Council) for compliance with thin-set mortar and vinyl tile adhesive. Meets the moisture retention of ASTM C 309 Type 1D, Class A & B on a hard troweled concrete surface.

Packaging

- 5 gallon pail (18.9 liters)
- 55 gallon drum (208.2 liters)
