

Clear Non-yellowing Water-Based Acrylic Sealer

SC Multi-Purpose Sealer is a clear, water-based, non-yellowing acrylic sealer developed to beautify and protect a wide variety of interior and exterior surfaces. Applications ranging from decorative concrete, pavers, exposed aggregate, and natural stone, to brick, quarry tile, terrazzo, and more will benefit from this durable, long lasting, easy-to-apply formula. This film-forming, low odor, multi-purpose sealer enhances the appearance of all treated surfaces with a medium gloss, satin sheen.

✓ Benefits

- Excellent stain resistance, repels oil and grease stains
- Seals interlocking pavers & brick pavers, locking sand in place
- Resists mold, mildew, algae and weed growth
- May qualify for LEED credits
- Cleans up with water
- Reduces efflorescence, fading, and freeze thaw effects

Usage

For use on interior and exterior applications
Waterseals, protects, and improves:

- Decorative, stamped, colored, and hard-troweled concrete
- Pavers, slate, flagstone, quarry tile, brick, and terrazzo
- Exposed aggregate

Standards

- Low VOC formula; SCAQMD, OTC, LADCO, compliant
- Complies with Federal V.O.C. standards for Curing and Sealing compounds.
- USDA Accepted
